We consider news stories filed yesterday on December peace probes to be essentially accurate and reasonably favorable from our point of view. We would prefer let matter rest there avoiding to extent feasible public exchange of interpretations with the Polish Government. When queried about story yesterday, official Spokesman said he preferred not rpt not to comment on story, addi FOR BACKGROUND that he "would have no quarrel with it". We inten maintain this position.

Since we have no/desire exacerbate US-Polish relations/over this matter, we/have no present intentions publish "White Book" on this subject. You should so inform Michalowski or other appropriate Polish official, while simultaneously providing flat assurance our intent to continue our ardent search fo a peaceful solution to Vietnam conflict and our willingness to ta at any time without preconditions.
